

Section 14 – Seek to vary conditions

Are you looking to vary the condition(s) of the EA?

☐ No – Go to next section☒ Yes – Provide details below

IMPORTANT NOTE: The administering authority considers what is necessary or desirable when setting the conditions of an EA. Seeking to vary the conditions is likely to change the environmental risk of an activity and will require an assessment of the environmental values. If this is not provided, the application may not be valid.

Provide details of: (a) condition number(s); (b) proposed change; and (c) justification for the change.

The mining lease is located approximately 108 metres from Endangered Regional Ecosystem (ERE) 11.4.8/11.11.2 at its closest point on the western boundary. For this reason, the applicant is unable to comply with condition A13 as activities will be carried out within 1 km of a Category B environmentally sensitive area (ERE). An overburden bund will be used to separate the mine excavation from the mapped ERE to ensure any eroded material is retained and does not unduly affect the ERE.

☐ I HAVE ATTACHED ADDITIONAL DETAILS FOR THIS SECTION.

If the activities were assessed as part of a coordinated project declared under the State Development and Public Works Organisation Act 1971, you are only able to amend Coordinator General conditions if the Coordinator General's evaluation report for the project has lapsed. If you are unsure if the Coordinator General's evaluation report has lapsed, contact the Department of State Development, Infrastructure and Planning for more information.

Section 15 – Compliance with any eligibility criteria

Are there any eligibility criteria for the activity(s)?

☐ No – Go to next section☐ Yes – Provide details below

State whether each relevant activity will, if the amendment is made, comply with any eligibility criteria for the activity.

Eligibility Criteria and Standard Conditions for Mining Lease Activities – Version 2 applies to this application. The proposed gold mining activity can comply with the Eligibility Criteria.
