

Notice

Environmental Protection Act 1994

Decision on request to make a change to an application for an environmental authority

This non-statutory notice is issued by the administering authority¹ pursuant to section 133 of the Environmental Protection Act 1994 to advise of a decision on your request to change an application for an environmental authority.

Savannah Goldfields Limited
Level 21 Matisse Tower, 110 Mary Street
BRISBANE CITY QLD 4000

Attention: Richard Davis, Rodney Cooper
Email transmission only: richard.davis@ardent-group.com.au, rcooper@savannahgoldfields.com

Your reference: A-EA-NEW-100326876 | P-EA-100326888
Our reference: C-EA-100326887 | 101/0040417

Decision on request to make a change to an application for an environmental authority

1. Original application details

The application for a site-specific environmental authority and proposed PRC plan was received by the administering authority on 8 November 2022.

The application reference number is: A-EA-NEW-100326876.

Land description: Mining Lease (ML) 100030.

2. Change to application

Thank you for your request to change the above-mentioned application. This request was received by the administering authority on 14 November 2025. The administering authority has reviewed your proposed changes and has determined the proposed change is not a minor change.

3. Decision

Because the proposed change to your application is not a minor change and the administering authority does not agree to treat the change as a minor change, the assessment process for the application will change. See below for further detail of the changed assessment process.

An assessment fee for a change of application for an environmental authority, other than a minor change or a change approved by the administering authority applies as prescribed under the *Environmental Protection Regulation 2019*. Please call Permit and Licence Management on 1300 130 372 and quote your reference number to pay your outstanding fee.

¹ The Department of the Environment, Tourism, Science and Innovation is the administering authority under the *Environmental Protection Act 1994*.

4. Changes to the assessment process

As the change to your application is not a minor change and the administering authority does not agree to treat the change as a minor change, the assessment process stopped on the date the request to change your application was received. Your assessment process will commence after the assessment fee has been paid, beginning at the end of the application stage.

If necessary, the administering authority may give an information request on the changed application within 30 business days of receiving your written notice of the change to your application and payment of the assessment fee.

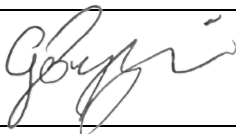

If an information request is not made and the notification stage does not apply, the administering authority will proceed to decide the application.

The administering authority will notify you if the application requires the notification stage to be repeated.

5. Human rights

A human rights assessment was carried out in relation to this decision, and it was determined that the decision is compatible with human rights.

Should you have any questions about the notice, please contact Minerals Business Centre using the details provided below.
